Timeline of Events

April 2013	May 2013	June 2013
The site in-charge Mr. L. Krishna Rao discontinued his service.	Arrangements were made at the site to start a Livelihood Learning Center in the next building.	The center has good collaboration with Government Rajiv Vidhay Mission, through which the children received textbooks and uniforms. At the center, the mid day meal was

		stopped for time being as the cook was on long leave.
--	--	---

July 2013	August 2013	September 2013
Mr. Ravi, Driver and his wife cook were transferred from Vinobha Nagar, Hyderabad region to Perecherla, Guntur region.	The center did not function due to indefinite strike by the Andhra Pradesh state government employees opposing the separation of state into two; Telangana and Andhra Pradesh.	The center was still closed due to indefinite strike. A staff meeting was held and environmental work has been improved.

October 2013	November 2013	December 2013
Conducted Quarterly exams for the children at the centre. Mr. L. Krishna Rao conducted the survey for odia children in nearby quarries.	Odia transit school was started in the quarries for odia migrant population. The volunteer attended special volunteers meeting at Head Office, Pedakakni. Me. Arokiam was resource person who trained on importance of review meeting.	She participated in the Annual meeting cum Neighborhood festival of Guntur Region. All the volunteers presented their reports and shared their experiences during the meeting.

January 2014	February 2014	March 2014
The site-in-charge participated in health camp organize by Dr. Prabakar Rao, Medikonduru - PHC. All the children were taken to the camp and underwent medical check-up. The doctor prescribed vitamin tablets and iron tablets to the children. In order to reduce Children's risk of travelling to school, the classrooms were shifted to community. Thus two community-based centers were started.	The site-in-charge requested the local PHC to help the migrant population by sanctioning government health cards to the villagers. The Government issued the health cards to villagers who were staying at the place for more than 2 years. The PHC doctor suggested the other villagers to apply for residential address proof which is mandatory for procuring health card.	The children appeared 4 th unit test at the center. She attended a meeting organized by Mr. Jean Paul, Project Coordinator who verified the yearly progress of the program on the basis of records, reports, expenditure and impact.

Overall Status

The volunteer maintained contact with the local government officials and neighboring schools. The center serves the migrant population of Tamil Nadu who attend work at stone crushers. As the children lack the knowledge of local language i.e. Telugu, the medium of instruction at the center is Tamil. Following the government rules and regulation, the classes were conducted in two places close to their work place.
