Success Story - 1

I am Vemula Santhi Swaroop hailing from Thella Quarry. I am studying fifth class. We are three children. My elder brother is studying 7th class. My younger sister is studying 3rd class. They come for the study center. When I was studying 2nd class I joined Evening Supervisory Study Center. That time I did not know the basics. I used to bunk the study center for some time. The Community Worker motivated me and my parents. Even after her motivation I was not moved. One day

when I was playing she took me by hand and led me to the study center. She made me to write all the A B C Ds. I learnt the letters. The next day in the class I showed to the teacher and the teacher gave me the words of appreciation then I felt very happy at that time. That time onward I was regular to Evening Supervisory Study Centre. I learnt all basics letters and numbers within short time. Later in COVID 19 Pandemic period all the schools were stopped. Then I forgot everything. By the time schools were opened I forgot everything even the tables. But the evening supervised study helped me pick up very fast.

My father is having kidney problem and is bed ridden. He is undergoing dialysis at regular intervals. Whenever there was dialysis my brother used to take me to the hospital. My mother is the only bread earner feeding us by her coolie work. So in this situation the Community Worker motivated us to study well and make parents happy. After joining the study center I am studying well and getting good marks. My teachers are also appreciating me well. I am motivating the other children who are irregular to come to the study center. I am a member in the children parliament and my brother is an education minister. I thank VRO and the Community Worker for giving us this opportunity.

Ich bin Vemula Shanti und komme vom Thela Steinbruch. Ich bin in der 5. Klasse. Wir sind 3 Kinder zuhause, mein älterer Bruder ist in der 7. Klasse und meine jüngere Schwester ist in der 3. Klasse. Meine Geschwister gehen in die Nachhilfeschule der VRO. Als ich in der 2. Klasse war, ging ich in die Nachhilfeschule der VRO, aber damals konnte ich noch nicht einmal die Grundlagen. Ich schwänzte dort oft. Die Dorfsozialarbeiterin sprach mit mir und meinen Eltern, und versuchte mich zu motivieren, aber es war vergeblich, es änderte nichts. Eines Tages, ich spielte gerade, nahm mich die Dorfsozialarbeiterin an der Hand und wir gingen zusammen ins Schulgebäude. Dort ließ sie mich schreiben und ich schrieb alle Buchstaben. Am nächsten Tag in der Schule zeigte ich meinem Lehrer, was ich gelernt hatte und er lobte mich sehr. Von da an ging ich regelmäßig zum Nachhilfeunterricht der VRO und ich lernte in kurzer Zeit schreiben und rechnen. Dann kam die Covid19 Pandemie und die Schulen wurden geschlossen. Als die Schulen wieder öffneten, hatte ich fast alles vergessen, selbst das Einmaleins. Aber die Nachhilfeschule der VRO half mir, alles schnell wieder aufzuholen.

Mein Vater hat Probleme mit seiner Niere und muss das Bett hüten. In regelmäßigen Abständen muß er zur Dialyse und mein Bruder nahm mich immer mit ins Krankenhaus. Meine Mutter ist die einzige Person, die als Tagelöhnerin Geld verdient und die Familie ernährt. Das ist unsere familiäre Situation. Die Dorfsozialarbeiterin der VRO motivierte uns Kinder, gut zu lernen und unsere Eltern glücklich zu machen. Nachdem ich nun regelmäßig in die Nachhilfeschule der VRO gehe, lerne ich gut und habe gute Noten. Und ich motiviere andere Kinder, auch regelmäßig am Nachhilfeunterricht teilzunehmen. Ich bin auch Mitglied im Kinderparlament, mein Bruder ist Erziehungsminister im Kinderparlament. Ich bin der VRO sehr dankbar, dass sie uns diese Chance eröffnet.

Success Story – 2

I am Karasala Manoj Kumar hailing from Kondaveedu, Yadlapadu mandal. I am studying 8th class. My parents are economically poor. They are illiterate. I am regular to the Evening Supervisory Study Center started by VRO. I got the best student award. I was regular in doing my homework. I do everything in the study center given in the school to me. I thank the school teachers and VRO especially for giving us Evening Supervisory Study Center.

Ich bin Karasala Manoj Kumar und komme aus Kondaveedu, im Bezirk Yadlapadu. Ich bin Schülerin in der 8. Klasse. Meine Eltern haben kein Geld. Sie sind Analphabeten. Ich gehe regelmäßig in die Nachhilfeschule der VRO und bekam eine Auszeichnung als beste Schülerin. Ich mache regelmäßig meine Hausaufgaben und erledige alle meine Schularbeiten in der Nachhilfeschule der VRO. Ich danke den Lehrern und der VRO, dass wir abends in diese Nachhilfeschule gehen können.

Success Story – 3

We are parent's committee members from Velavarthipadu village Medikonduru mandal. We are all daily wage workers and go for daily work and come in the evenings. Children after the school hours were roaming about without guidance. VRO came to our village at our request and started the Evening Supervisory Study center. The timings are 4.00 pm in the evening to 6.00 pm. The children of ours are utilizing this opportunity and coming regularly to the study center. The parents of children are illiterate and due to work they are unable to take care of the needs of them.

Though the schools were closed the evening study centers were running and thus helped our children to study well. Our children have improved a lot in their education. In the study center children do their homework, play games and participate in other extra-curricular activities. Our children are engaged well and we are thankful to VRO.

Wir sind die Mitglieder des Elternkomitees im Dorf Velavarthipadu im Bezirk Medikonduru. Wir alle sind Tagelöhner, arbeiten tagsüber und kommen abends heim. Unsere Kinder waren früher nach der Schule ohne Aufsicht. Auf unsere Bitte hin kam die VRO zu uns ins Dorf und begann mit der Nachhilfeschule. Die Unterrichtszeit ist von 16:00 bis 18:00 Uhr. Unsere Kinder nutzen diese Chance und gehen regelmäßig dorthin zum Unterricht. Wir Eltern sind Analphabeten, deshalb und wegen unserer Arbeit und können wir uns nicht um die Kinder kümmern.

Die Schulen waren (während der Pandemie) geschlossen, aber nicht die Nachhilfeschule der VRO, und so konnten unsere Kinder gut lernen. Unsere Kinder sind viel besser geworden in der Schule. In der Nachhilfeschule der VRO machen unsere Kinder ihre Hausaufgaben, sie spielen und sie machen außerschulische Aktivitäten. Unsere Kinder sind gut beschäftigt und wir Eltern sind der VRO dankbar.

Success Story – 4

I am Gunja Soumya hailing from Thella quarry and studying fifth standard. I joined Evening Supervisory Study center when I was studying 2nd class. I was not regular to the study center. I used to play with other children without any study. I was rude in my behavior. I used to get angry. Then the Community Worker complained to my parents that I was not regular and not doing any home work. One day the Community Worker came and informed my parents about my irregularity and they were not aware of this until she brought to my mother's notice. I received through scolding from

my mother but the community worker was so kind to me and motivated me nicely to study well. She advised me that if I did not study well that I would become like my parents illiterate. Then onward I started going to study center, and doing homework regularly. I was better than last year in my education and got good marks in the subjects. Later due to COVID 19 situation one year I was dropped. Again I forgot everything. Due to the motivation of the Community Worker and the Circle Coordinator I am again in the track. They taught me value of education. Now I am determined to study well and make my parents happy. Now I am regular to the study center and helping the Community Worker. Now I am a changed person. My mother also expressed her happiness over the change of my behavior. Thanks to the VRO for the study center.

Success Story – 5

I am Ch. Chaitanya, from Vemuluripadu village. I had been to the Evening Supervisory Study Center from 2017 to 2019. My Community Worker is Mrs. Sujatha. In the beginning I was not aware of the study center. Seeing the other neighboring children going to the study center I followed. In the beginning I felt shy about it. Mrs. Sujatha, the Community Worker whom I call her as my elder Sister used to take care of me well. Much etiquette she taught me. She used to correct me well when I do something wrong. She taught me basics of education well because of which I am now studying better than before. I am a finance minister in children parliament. As a finance minister, with the support of other ministers I collected one rupee from the parents and formed the fund. With that fund we purchased tube light, tarpaulin and other items to equip the study center thus meeting the needs of the center. We are learning and meeting everything through the study center. I feel fortunate to join the study center. We as children are thankful to VRO.
