

PROGRAM PROFILE FOR 2013-14
CHILDREN LEARNING CENTER (CLC) PERECHERLA (Non-Residential)

Region	Guntur
Name of the site	Perecherla
About site	Land details: 2.00 acres of land and the program is conducted in the building with asbestos roof. Location: Perecherla (Post), Medikonduru (Mandal), Guntur (Dist), Andhra Pradesh
Program Title	Children Learning Centre(CLC- Tamil medium)
Stake holders	30 children, Age group of 6 – 14years (Boys and Girls)
Rationale	The migrant parents from Tamil Nadu work in stone quarries. The parents are illiterate and daily labourers. Their children cannot go to any school to continue their study since there is no Tamil medium. So the school run by VRO is the only possibility for them to continue their study in Tamil medium till they go back to Tamil Nadu.
Program Brief	The Learning Center provides educational support to the children. The aim of the center is to help the child to develop holistically through academics and other extracurricular activities like games, music, singing, drawing etc. The proposed Program is non-residential provided with mid-day meal.
Objectives	To help the children with holistic development i.e. social, physical and intellectual.
Inputs	Staffing:[Core-02 + Aux-02 = 04] <u>Core Staff:</u> Learning guides – 02[Total - 02] <u>Auxiliary Staff:</u> Cook – 01, Driver – 01[Total – 02] Materials: Teaching aids, notebooks, stationery, games material and drawing material, gardening tools Infrastructure: Repairing of the toilets & bathrooms, white washing the buildings and electrical repairs, wall painting etc. Staff training: The volunteers are given in-service training to improve their talents and skills. The volunteers will undergo training on Spoken English, program management, planning & evaluation, networking with government etc.
Throughputs(Activities)	To achieve the above objective, the following activities will be carried out: • Creating awareness about education among the parents and motivating them to send their children to VRO School. • Imparting value education and providing extracurricular activities like games, singing, drawing etc. • For a healthy life of children – mid day meal is provided. • Health and Hygiene classes will be given to the children.
Outputs/Outcomes	The following are the outputs that are expected: • Holistic development of the children i.e. social, physical and intellectual development through healthy, safe and productive environment. • They keep up their education without discontinuing.
Monitoring & Evaluation	A series of meetings will be organized to measure the progress and impact of the Program. The following are techniques used to evaluate the Program at different perspectives. • Parents meeting will be organized once in 04 months to assess the progress of the child and also to get the background of the family situation of the child. • A staff meeting will be organized every week once to assess the progress of each child. • A review meeting will be organized at regional level every month for better follow-up of the program. During this meeting, the teacher in charge will present the progress report of the program. The Program will be evaluated at regional level by the Regional Field Coordinator and the same will be reported to the Project Coordinator and the Operational Director.
